Innovations is proud to introduce the Saf-T-Unloader; a CO2 powered unit designed to safely unload muzzle loading guns. Adapters are available for most muzzle loading weapons including: flintlock, #11 percussion, musket cap, #9 shotgun primer and most inline guns.

Saf-T-Unloader can also be used between shots to remove sparks or embers, remove oxygen, and cool the barrel. Helps avoid accidental discharges!

A "must have" for any hunter or shooting enthusiast!
